

AN INDEPENDENT REVIEW OF PUBLICLY AVAILABLE RECORDS

What the Minutes Say

Thirty Years of National Speleological Society Board of Governors Records, 1996–2026

Presented by Aaron Bird

NSS Fellow · NSS #27029

Records collected 22–24 September 2026 (UTC) · Facts as of 24 September 2026

Not an official NSS presentation. Every fact comes from pages reachable without any login.

Three ground rules

1

Public only

Every document was retrieved from a public web address with no login, no account and no cookies. Member-only material (for example NSS News) is excluded and handled in a separate, clearly labelled effort.

2

Descriptive

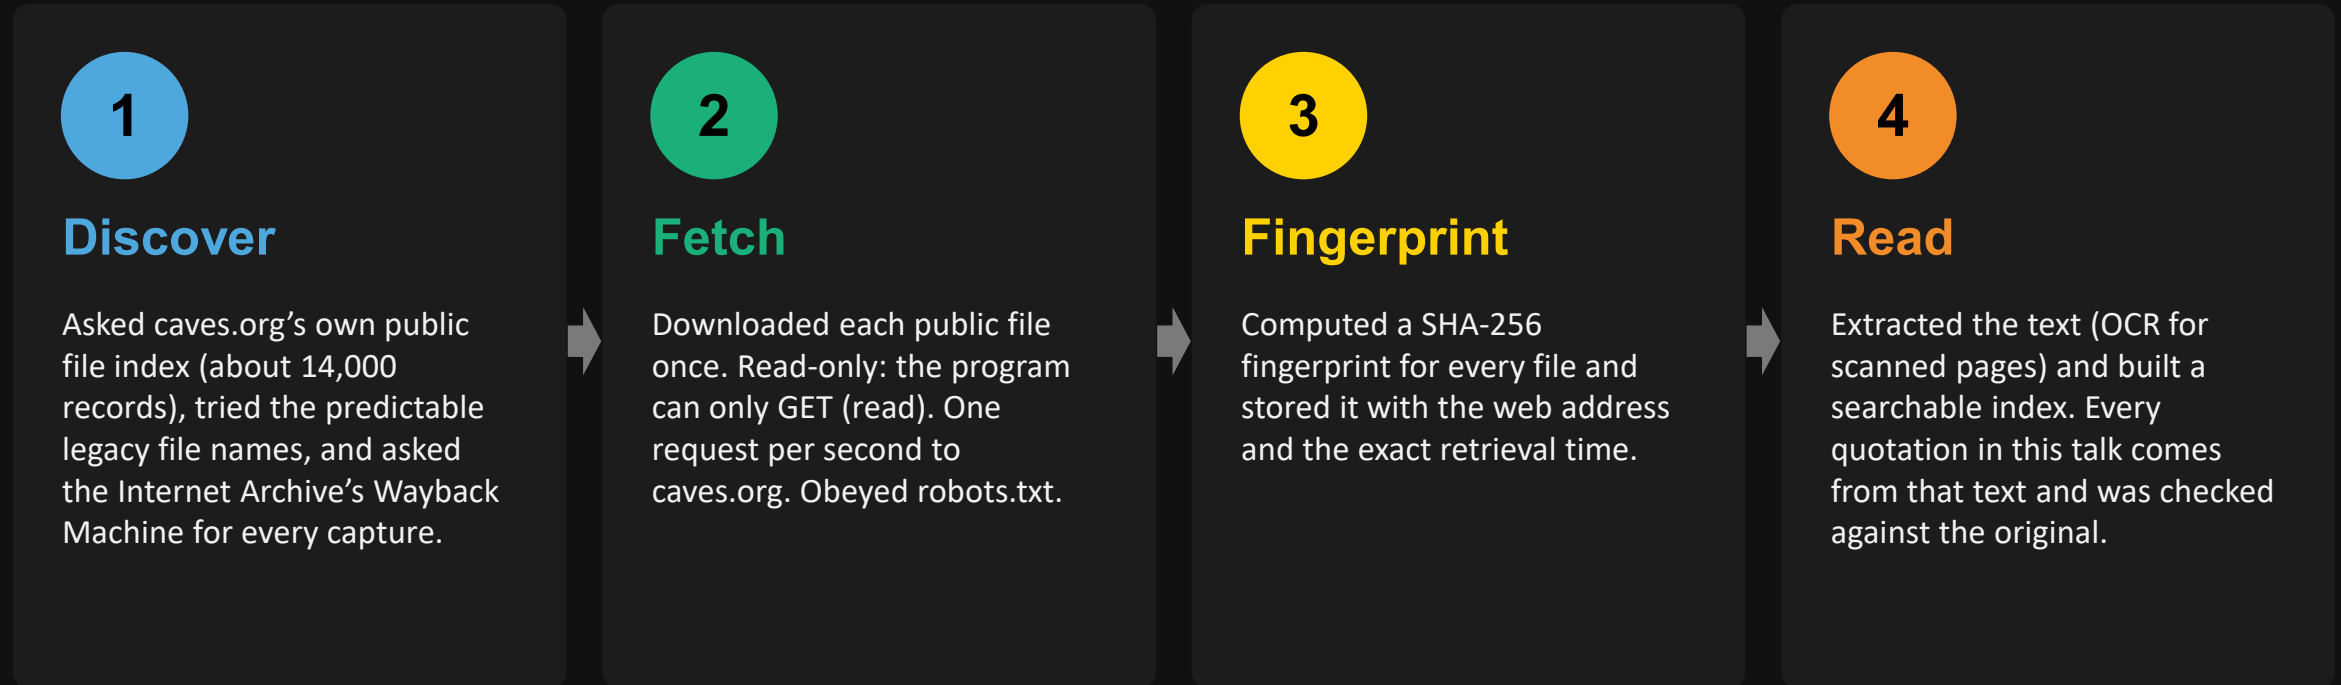

The talk reports what the records say and what they do not say. It does not assign motives. Where a record is a draft, it is labelled as a draft.

3

Traceable

Each slide carries its source. Speaker notes and the appendix give full web links. Every file has a SHA-256 fingerprint and a retrieval time in a manifest.

How the investigation worked

Collection	Date collected (UTC)
Minutes, agendas, officer reports	22 Sep 2026
Acts, Bylaws, Board Manuals · public financial records · IRS data	23 Sep 2026
Executive Director role documents	24 Sep 2026

METHOD

SHA-256: a fingerprint for every file

Feed any file or text into SHA-256 and out comes a 64-character fingerprint. Change a single character and the fingerprint changes completely. It cannot be run backwards, and no one has found a way to make two different files with the same fingerprint.

PART 1

The rules for minutes

What the Society's own governing documents require — and how those rules have changed.

A large yellow circle containing the number 1.

The current rule, in the Society's own document

superseded by a special board act.

B. The Chair of the Board will normally act as parliamentarian unless he chooses to appoint a parliamentarian to assist him. As Robert's Rules are designed to expedite the business of the meetings, board members should become familiar with them.

V. Minutes

A. Draft minutes will be distributed to Board members by the Recording Secretary as soon as possible after the meeting, preferably within 14 days. Board members will be asked to submit corrections and suggestions to the Recording Secretary within 7 days. After making all necessary corrections the Recording Secretary will submit to the Chair of the Board a copy of the comments and corrections related to the business conducted, as well as the final draft minutes for approval by the Board at the next regular meeting. The final draft will be posted to the NSS Business page of the NSS Web site as soon as possible, but no later than 30 days after the meeting. The draft version will be replaced by the final version approved at the following meeting. Only corrections relating to the content of minutes of the previous meeting will be brought before the Board for approval. The NSS recording secretary is responsible for ensuring the minutes are posted online.

B. Minutes shall include only motions; disposals of motions; other action taken; oral updates to officers' written reports; issues and comments presented during Open Discussion period; reports from the closed sessions; a list of Board members present and proxies; disclosures of conflict of interest and their deposition, and other information pertinent to the meeting and business conducted. Written reports from Division heads and committees shall be included as attachments to the minutes

Jul 2011

Item 17 — passed unanimously

“The final draft will be posted to the NSS Business page of the NSS Web site as soon as possible, but no later than 30 days after the meeting.”

Summary: the 30-day posting deadline is adopted; 30→14 days for drafts, 15→7 days for corrections.

What the Society told the IRS about its minutes

Form 990, Part VI, line 8a: “Did the organization contemporaneously document the meetings held or written actions undertaken during the year by the governing body?”

FY = the fiscal year the return covers, named for the year it ends (31 March). The IRS labels the same returns “tax year” 2017–2024, the year each fiscal year begins. Filing dates are the e-file submission dates recorded by the IRS. The same returns answer “No” (FY2023–25) to whether a conflict-of-interest policy, whistleblower policy and document-retention policy exist.

Is there really no return for FY2022?

Public records show no FY2022 return. That is not proof the IRS never received one; only the Society or the IRS can confirm.

Three cross-checks

- The same IRS index does list the National Speleological Foundation’s return for the same period (Apr 2021–Mar 2022).
- The FY2023 return’s “prior year” column repeats FY2021 figures, not FY2022.
- The Society’s own S-T report, July 2024: “Our tax return has not been filed since 2020 due to problems with the audit.” (IRS “2020” = FY2021.)

Questions the record raises

?

Which page is “the NSS Business page” today, and when will minutes be posted there within 30 days?

?

Why did the FY2023 and FY2024 returns answer “No” on line 8, with no Schedule O explanation?

?

Who is responsible for posting minutes now that Act 05-290 (Recording Secretary) is gone?

?

Was a Form 990 filed for FY2022 (Apr 2021 – Mar 2022)?

?

Why are all 2026 minutes still “Draft 1,” and why are none in the Board Minutes collection?

?

Can members see previous Manual editions and repealed Acts without a login?
